CONTENTS OF VOLUME 44

Anderson, D. T. and **Russell, G. C.** Effects of various quantities of straw mulch on the growth and yield of spring and winter wheat, 109.
Baker, J. and **Burns, W. T.** The determination of exchangeable cations and cation-exchange capacity of soils using dilute nickel chloride, 360.
Ballantyne, A. K. and **Clayton, J. S.** The relationship of exchangeable cations in the B horizons to the field separations of Solonetzic and Chernozemic soils, 43.
Basaraba, J. Mineralization of urea–formaldehyde compounds at different pH levels and temperatures, 131.
Bentley, C. F. See Pawluk, S., 261.
Bishop, R. F. See MacLeod, L. B., 237; MacKay, D. C., 310.
Bishop, R. F., Jackson, L. P., MacEachern, C. R., and **MacLeod, L. B.** A long-term field experiment with commercial fertilizers and manure. III. Fertility levels, crop yields, and nutrient levels in corn, oats, and clover, 56.
Bowren, K. E. See Dawley, W. K., 212.
Bremner, J. M. See Edwards, A. P., 366.
Brownlee, C. H. See Wilcox, J. C., 260.
Burns, W. T. See Baker, J., 360.
Calder, F. W. See MacLeod, L. B., 237.
Clark, J. S. A paint shaker for suspending soils and clays, 163.
Some cation-exchange properties of soils containing free oxides, 203.
Clark, J. S. and **Green, A. J.** Some charactistics of gray soils of low base saturation from northeastern British Columbia, 319.
Clayton, J. S. See Ballantyne, A. K., 43.
Coupland, R. T. See Dodd, J. D., 165.
Dawley, W. K., Dryden, R. D., McCurdy, E. V., Molberg, E. S., Bowren, K. E., and **Dew, D. A.** The effect of cultural and fertilizer treatments on yields of wheat on second crop land, 212.
Desjardins, J. G. See Schnitzer, M., 272.
Dew, D. A. See Dawley, W. K., 212.
Dionne, J. L. et **Rola-Pleszczynski, S. A.** Comportement differentiel de la luzerne en regard du chaulage sur cinq types de sols de Québec, 119.
Dodd, J. D., Rennie, D. A., and **Coupland, R. T.** The nature and distribution of salts in uncultivated saline soils in Saskatchewan, 165.
Dormaar, J. F. Fractionation of the humus of some chernozemic soils of southern Alberta, 232.
Evaluation of methods for determination of total organic phosphorus in chernozemic soils of southern Alberta, 265.
Dormaar, J. F. and **Webster, G. R.** Losses inherent in ignition procedures for determining total organic phosphorus, 1.
Fractionation of the humus of some chernozemic soils of southern Alberta, 232.
Dryden, R. D. See Dawley, W. K., 212.
Edwards, A. P. and **Bremner, J. M.** Use of sonic vibration for separation of soil particles, 366.
ElBagouri, I. H. M. See Soper, R. J., 337.
Ferguson, W. S. Effect of rainfall on plant response to phosphorus, 180.
Ferguson, W. S. and **Gorby, B. J.** Effect of straw on availability of nitrogen to cereal crops, 286.
Findlay, W. I. and **Fulton, J. M.** The nutrient composition of hybrid corn as influenced by fertilization. II. The phosphorus percentage, 217.
Fulton, J. M. See Findlay, W. I., 217.
Gorby, B. J. See Ferguson, W. S., 286.
Green, A. J. See Clark, J. S., 319.
Halstead, R. L. Phosphatase activity of soils as influenced by lime and other treatments, 137. See also MacLean, A. J., 66.
Hamilton, H. A. and **Lathwell, D. J.** Investigation of some factors important in differential crop response to diammonium and monocalcium phosphates, 14.
Heeney, H. B. See Jasmin, J. J., 280.
Hinman, W. C. Fixed ammonium in some Saskatchewan soils, 151.
Hobbs, E. H. See Lutwick, L. E., 145.
Hoffman, I. See Schnitzer, M., 7.
Hutcheon, W. L. See Racz, G. J., 100.
Irwin, R. W. See Mirza, C., 248.
Jackson, L. P. See Bishop, R. F., 56.
Jasmin, J. J. See MacLean, A. J., 66.
Jasmin, J. J., Heeney, H. B., and **Tourchot, R.** Potassium and phosphorus accumulation in organic soil and their influence on potato crops, 280.
Ketcheson, J. W. See Sherrell, C. G., 329.
Kloek, M. See Voisey, P. W., 159.

Hoffman, I. See Schnitzer, M., 7.
Hutcheon, W. L. See Racz, G. J., 100.
Irwin, R. W. See Mirza, C., 248.
Jackson, L. P. See Bishop, R. F., 56.
Jasmin, J. J. See MacLean, A. J., 66.
Jasmin, J. J., Heeney, H. B., and **Tourchot, R.** Potassium and phosphorus accumulation in organic soil and their influence on potato crops, 280.
Ketcheson, J. W. See Sherrell, C. G., 329.
Kloek, M. See Voisey, P. W., 159.

Korven, H. C. See Wilcox, J. C., 260.
Korven, H. C. and **Wilcox, J. C.** Effects of flow variations on the salt content and reaction of a mountain creek, 352.
Krogman, K. K. See Lutwick, L. E., 38.
Krogman, K. K. and **Lutwick, L. E.** Uptake of nitrogen by wheat, and phosphorus by alfalfa, from some grassland soils of southern Alberta, 304.
Langmaid, K. K. Some effects of earthworm invasion in virgin podzols, 34.
Lathwell, D. J. See Hamilton, H. A., 14.
Lavkulich, L. M., Pawluk, S., and **Odynsky, W.** Soil profile development in some Peace River soils, 188.
Lehane, J. J., Warder, F. G., and **Staple, W. J.** Decline of wheat yields and depletion of some nutrients on a loam soil during a 36-year period, 50.
Lemieux, G. J. Efficiency of various shakers in the particle-size analysis of soils, 228.
Lindsay, J. D. See Pawluk, S., 292.
Lorimer, J. W. See Smith, D. G., 76.
Lowe, L. E. An approach to the study of the sulphur status of soils and its application to selected Quebec soils, 176.
Lutwick, L. E. See Krogman, K. K., 304.
Lutwick, L. E. and **Krogman, K. K.** Fertilizer response of forage crops in the Upper Kootenay River Valley, 38.
Lutwick, L. E. and **Hobbs, E. H.** Relative productivity of soil horizons, singly and in mixture, 145.
MacEachern, C. R. See Bishop, R. F., 56.
See also MacLeod, L. B., 237.
See also MacKay, D. C., 310.
Mack, A. R. See MacLean, A. J., 66.
MacKay, D. C., MacEachern, C. R., and **Bishop, R. F.** The relation of soil test values to fertilizer response by the potato. III. Exchangeable potassium and potassium fertilizer requirements, 310.
MacLean, A. A. The evaluation of the residual effect of fertilizer in long-term fertility plots. II. Phosphorus, 223.
MacLean, A. J., Halstead, R. L., Mack, A. R., and **Jasmin, J. J.** Comparison of procedures for estimating exchange properties and availability of phosphorus and potassium in some eastern Canadian organic soils, 66.
MacLeod, L. B. A method for extracting soil solution from an active soil-plant system, 367.
See also Bishop, R. F., 56.
MacLeod, L. B., Bishop, R. F., Calder, F. W., and **MacEachern, C. R.** Effect of various rates of liming and fertilization on certain chemical properties of a strongly acid soil and on the establishment, yield, botanical, and chemical composition of a forage mixture, 237.
McCurdy, E. V. See Dawley, W. K., 212.
McKercher, R. B. Summerfallow wheat protein variations in Saskatchewan, 196.
Miller, M. H. See Sherrell, C. G. 329.
Mirza, C. and **Irwin, R. W.** Determination of subsidence of an organic soil in southern Ontario, 248.
Molberg, E. S. See Dawley, W. K., 212.
Odynsky, W. See Reeder, S. W., 22.
See also Lavkulich, L. M., 188.
Pawluk, S., See Lavkulich, L. M., 188.
Pawluk, S. and **Bentley, C. F.** The uptake of S^{35} by crops from variable depths in the soils, 261.
Pawluk, S. and **Lindsay, J. D.** Characteristics and genesis of brunisolic soils of northern Alberta, 292.
Pohjakas, K. A technique for maintaining water tables in field studies, 158.
Protz, R. and **St. Arnaud, R. J.** The evaluation of four pretreatments used in particle-size distribution analyses, 345.
Racz, G. J., Rennie, D. A., and **Hutcheon, W. L.** The P32 injection method for studying the root system of wheat, 100.
Reddy, G. R. Effect of mixing varying quantities of dicyandiamide with ammonium fertilizers on nitrification of ammonia in soils, 254.
Reeder, S. W. and **Odynsky, W.** Morphological and chemical characteristics of the Solonetzic soils of northwestern Alberta, 22.
Rennie, D. A. See Racz, G. J., 100.
See also Dodd, J. D., 165.
Rola-Pleszczynski, S. A. See Dionne, J. L., 119.
Russell, G. C. See Anderson, D. T., 109.
Schnitzer, M., Turner, R. C., and **Hoffman, I.** A thermogravimetric study of organic matter of representative Canadian Podzol soils, 7.
Schnitzer, M. and **Desjardins, J. G.,** Further investigations on the alkaline permanganate oxidation of organic matter extracted from a Podzol Bh horizon, 272.

Sherrell, C. G., Ketcheson, J. W., and **Miller, M. H.** The effect of placement of banded fertilizer on fertilizer phosphorus absorption and yield of oats in greenhouse and field experiments, 329.
Smith, D. G. and **Lorimer, J. W.** An examination of the humic acids of *Sphagnum* peat, 76.
Soper, R. J. and **ElBagouri, I. H. M.** The effect of soil carbonate level on the availability of added and native phosphorus in some calcareous Manitoba soils, 337.
Staple, W. J. See Lehane, J. J., 50.
St. Arnaud, R. J. See Protz, R., 345.
St. Arnaud, R. J. and **Whiteside, E. P.** Morphology and genesis of a chernozemic to podzolic sequence of soil profiles in Saskatchewan, 88.
Tourchot, R. See Jasmin, J. J., 280.
Turner, R. C. See Schnitzer, M., 7.
Voisey, P. W. and **Kloek, M.** A switching system for soil moisture temperature probes, 159.
Warder, F. G. See Lehane, J. J., 50.
Webster, G. R. See Dormaar, J. F., 1.
Whiteside, E. P. See St. Arnaud, R. J., 88.
Wilcox, J. C. See Korven, H. C., 352.
Wilcox, J. C., Korven, H. C., and **Brownlee, C. H.** The pH and salt content of stream water as affected by elevation and aspect, 260.
